1. ASSESSMENT OF THE SITUATION OF THE COMPANY IN 2015

In 2015, CIECH S.A. reached a positive net profit to the value of PLN 331,578 thousand, the

balance sheet sum amounted to PLN 3,227,761 thousand, and the level of cash showed an increase by the amount of PLN 164,587 thousand. Net profitability of sale amounted to 16.3%. Both internal and external factors contributed to such net profit in 2015. Key internal factors included an increase in selling prices, growth in the volumes of sale and an improvement of profitability of export as a result of the weakening of PLN against USD and EUR. Another factor which had a positive effect on the achieved result was dissolution of write-offs establishing net present value, created in the preceding years with regard to the shares in the SDC GmbH company. The positive result was partially levelled by the creation of write-offs establishing the net present value due to loss of value of assets and increased costs connected with early redemption of issued corporate bonds. Key external factors included an improvement in the market situation in the chemical industry, economic recovery in the European Union, growth in sales in the domestic construction-assembly sector.

In 2015, revenues from sale of CIECH S.A. amounted to PLN 2,038,491 thousand and they were higher (by 23.1%) in comparison with 2014. The main reasons for such growth included significant increases in prices introduced by the Company, growth in the volumes of sale and an improvement of profitability of export as a result of the weakening of PLN against USD and EUR.

In 2015, the gross profit from sale amounted to PLN 446,404 thousand, and during the corresponding period of the previous year, to PLN 347,668 thousand. Meanwhile, profit on operating activity in 2015 was at the level of PLN 315,225 thousand and PLN 132,126 thousand for the comparative period. EBIT profitability amounted to 15.5% at the end of 2015 (in the preceding year - 8%), and EBITDA profitability to 15.7% (a year before - 8.4%).

As of 31 December 2015, the equity capital was equal to PLN 1,297,223 thousand, which means a level of the equity capital higher by PLN 335,365 thousand in comparison with the level as of the end of 2014.
